

MICROSEMINARS.

DEPARTMENT OF PHYSIOLOGY, JGMM MEDICAL COLLEGE, HUBBALLI.
conducted MICROSEMINARS for Phase I MBBS students on multiple occasions.

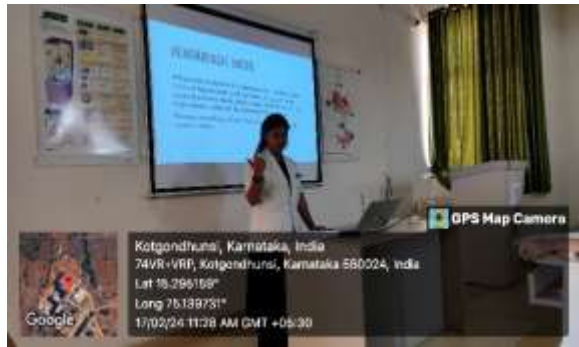

Students were allotted different topics beforehand and Teacher Guides were allotted.

The Objective of the MICROSEMINARS to create more interest in the subject and stimulate thinking in all the students minds were very well fulfilled. Also, the fear among some students to come ahead on the stage and speak also diminished.

All the students in the audience also read and came and led to healthy discussion which fostered learning.

Feedback was taken for better learning process.
